Carmax Reports Significant Moly Resource at Eaglehead

Tuesday June 5, 2012, 12:02pm PDT

By Jessica Oman

Mining Weekly reported that Carmax Mining (TSXV:CXM) released a resource estimate for its Eaglehead project of 22-million pounds of molybdenum.

As quoted in the market news:

“Using a cutoff grade of 0.16% copper equivalent, the resource, located in north-western British Columbia, is estimated to contain significant quantities of copper and molybdenum, 6.3-million ounces of silver, and 265 000 oz of gold.”
